

Year 3 home learning plan for week 1

This is an overview of home learning for the upcoming week. It follows as much as possible what the children would be learning in school but it may be subject to change due to the constraints of what can be achieved at home and which resources we can upload. Please don't feel that you have to follow it slavishly, but by completing the activities the children will get the most out of their time away from school.

The most important thing to prioritise is **READING**. This is the foundation for all learning across the whole curriculum and your child's ability to read accurately and fluently at an age-appropriate level is fundamental to their future education and life chances.

Confidence

Kindness

Respect

Motivation
